

AGAPE ESCAPE

Agape Escape is a story about some dreams that come true and the friendship that perfectly fits into that dream. Despite the fact that hand-ball court was the place where three of us met, we shall say that It was meant to be no matter where and when. Sharing a ball, jersey and a joy of playing the game lead us to the best times of our lives, even as we have a lot of things to live through and places to escape together. Agape Escape is kind of love that brought and kept us together and that kind of long and prosperous story we would like to share with you. Sanela, Sonja and Marija are kind of ordinary women that mixed up their lives in the best possible way, sharing love, happiness, joy and even sadness all the time. After a successful professional career and accomplishing, a dream that every player has, they decided to pivot their lives by way of dreaming even bigger and wider- to fulfil their lives with better memories without even the possibility of losing a game.

Together they hold Olympic Game Silver medal, Europe Championship Gold medal and Champions League Trophy as well as dozens of national cups and championship first places won through the years they played in Montenegro, Serbia, Croatia, Romania, Russia, France, Hungary and Turkey. Living in several countries made them fall in love with all the other places and provoked in them at will for non stooping the adventure they started years ago.

Now, they will travel across the countries and what is the best give you a chance to to the same in their camper van!
